

Les maisons des animaux

Author: Ashwitha Jayakumar

Illustrator: Nafisa Nandini Crishna

Translator: Cyrille Largillier

Level 1

Les animaux vivent tout autour
de nous.

An illustration of a tropical scene. On the left, a toucan with a large, colorful beak (yellow, orange, and black) is perched on a brown tree branch. The toucan has black and white feathers. To the right, a large, orange, hexagonal beehive is attached to a tree branch. Several bees are flying around the beehive. Below the beehive, a small yellow and brown bird is sitting in a cup-shaped nest made of green twigs, hanging from a branch. The background is filled with green leaves and a light blue sky.

Les oiseaux construisent leurs maisons
en hauteur.

Et les abeilles aussi.

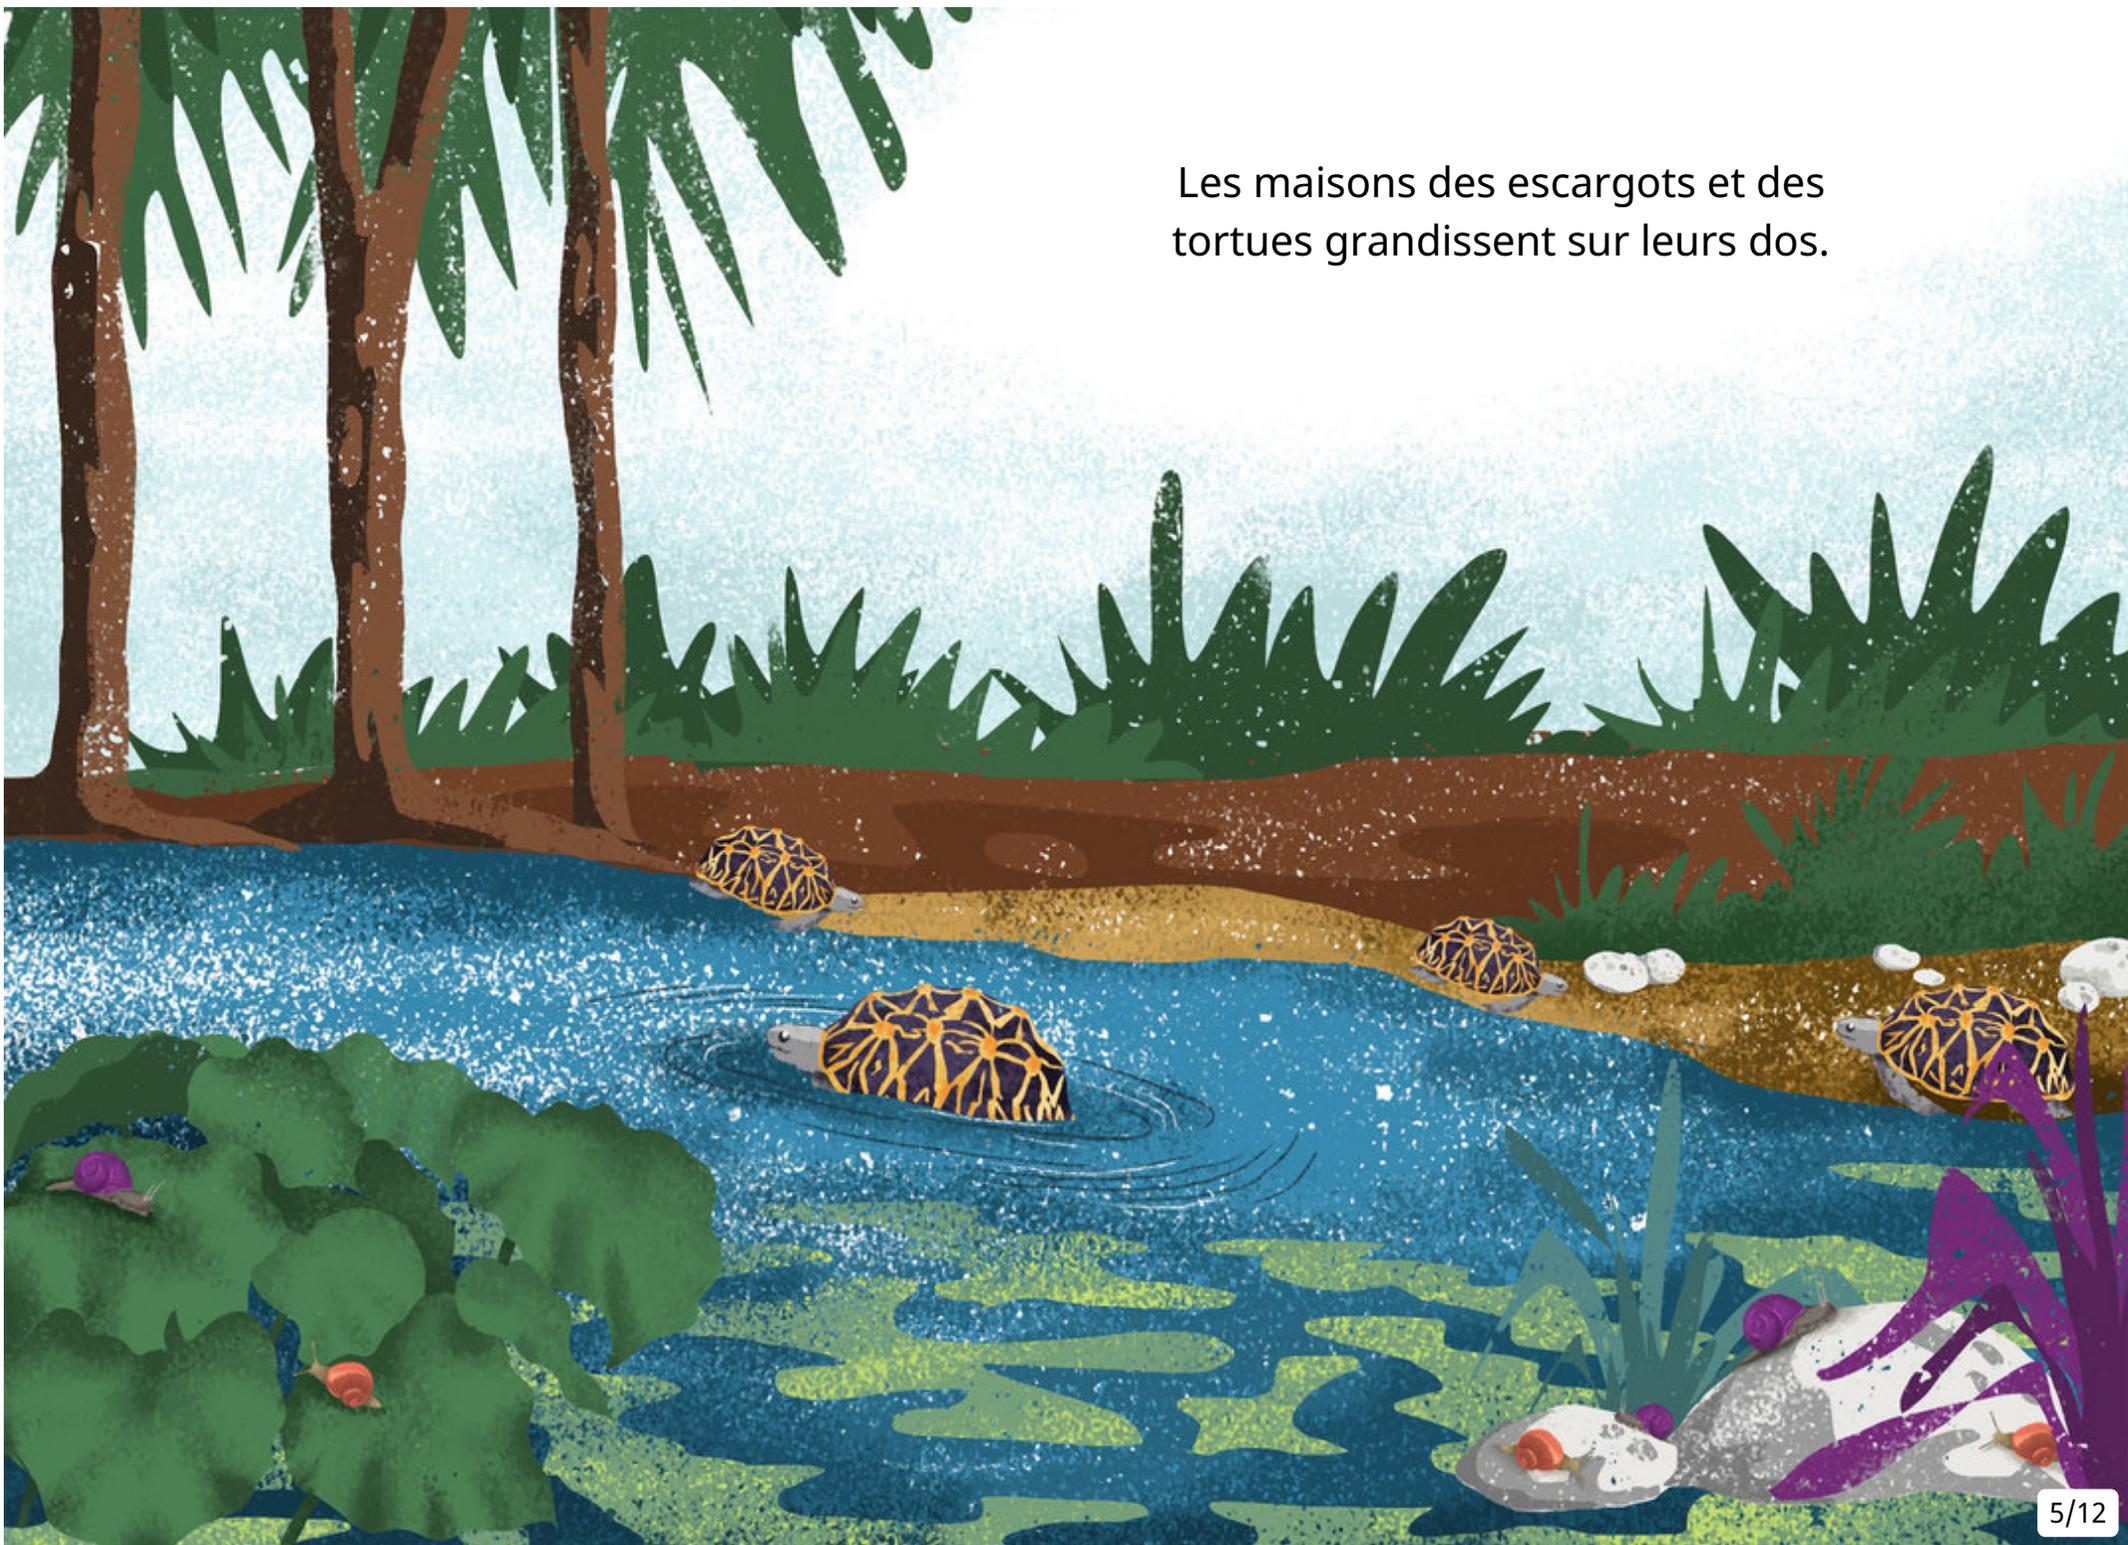

Les araignées tissent leurs
maisons.

Les minuscules termites
construisent des maisons
très hautes.

Les maisons des escargots et des tortues grandissent sur leurs dos.

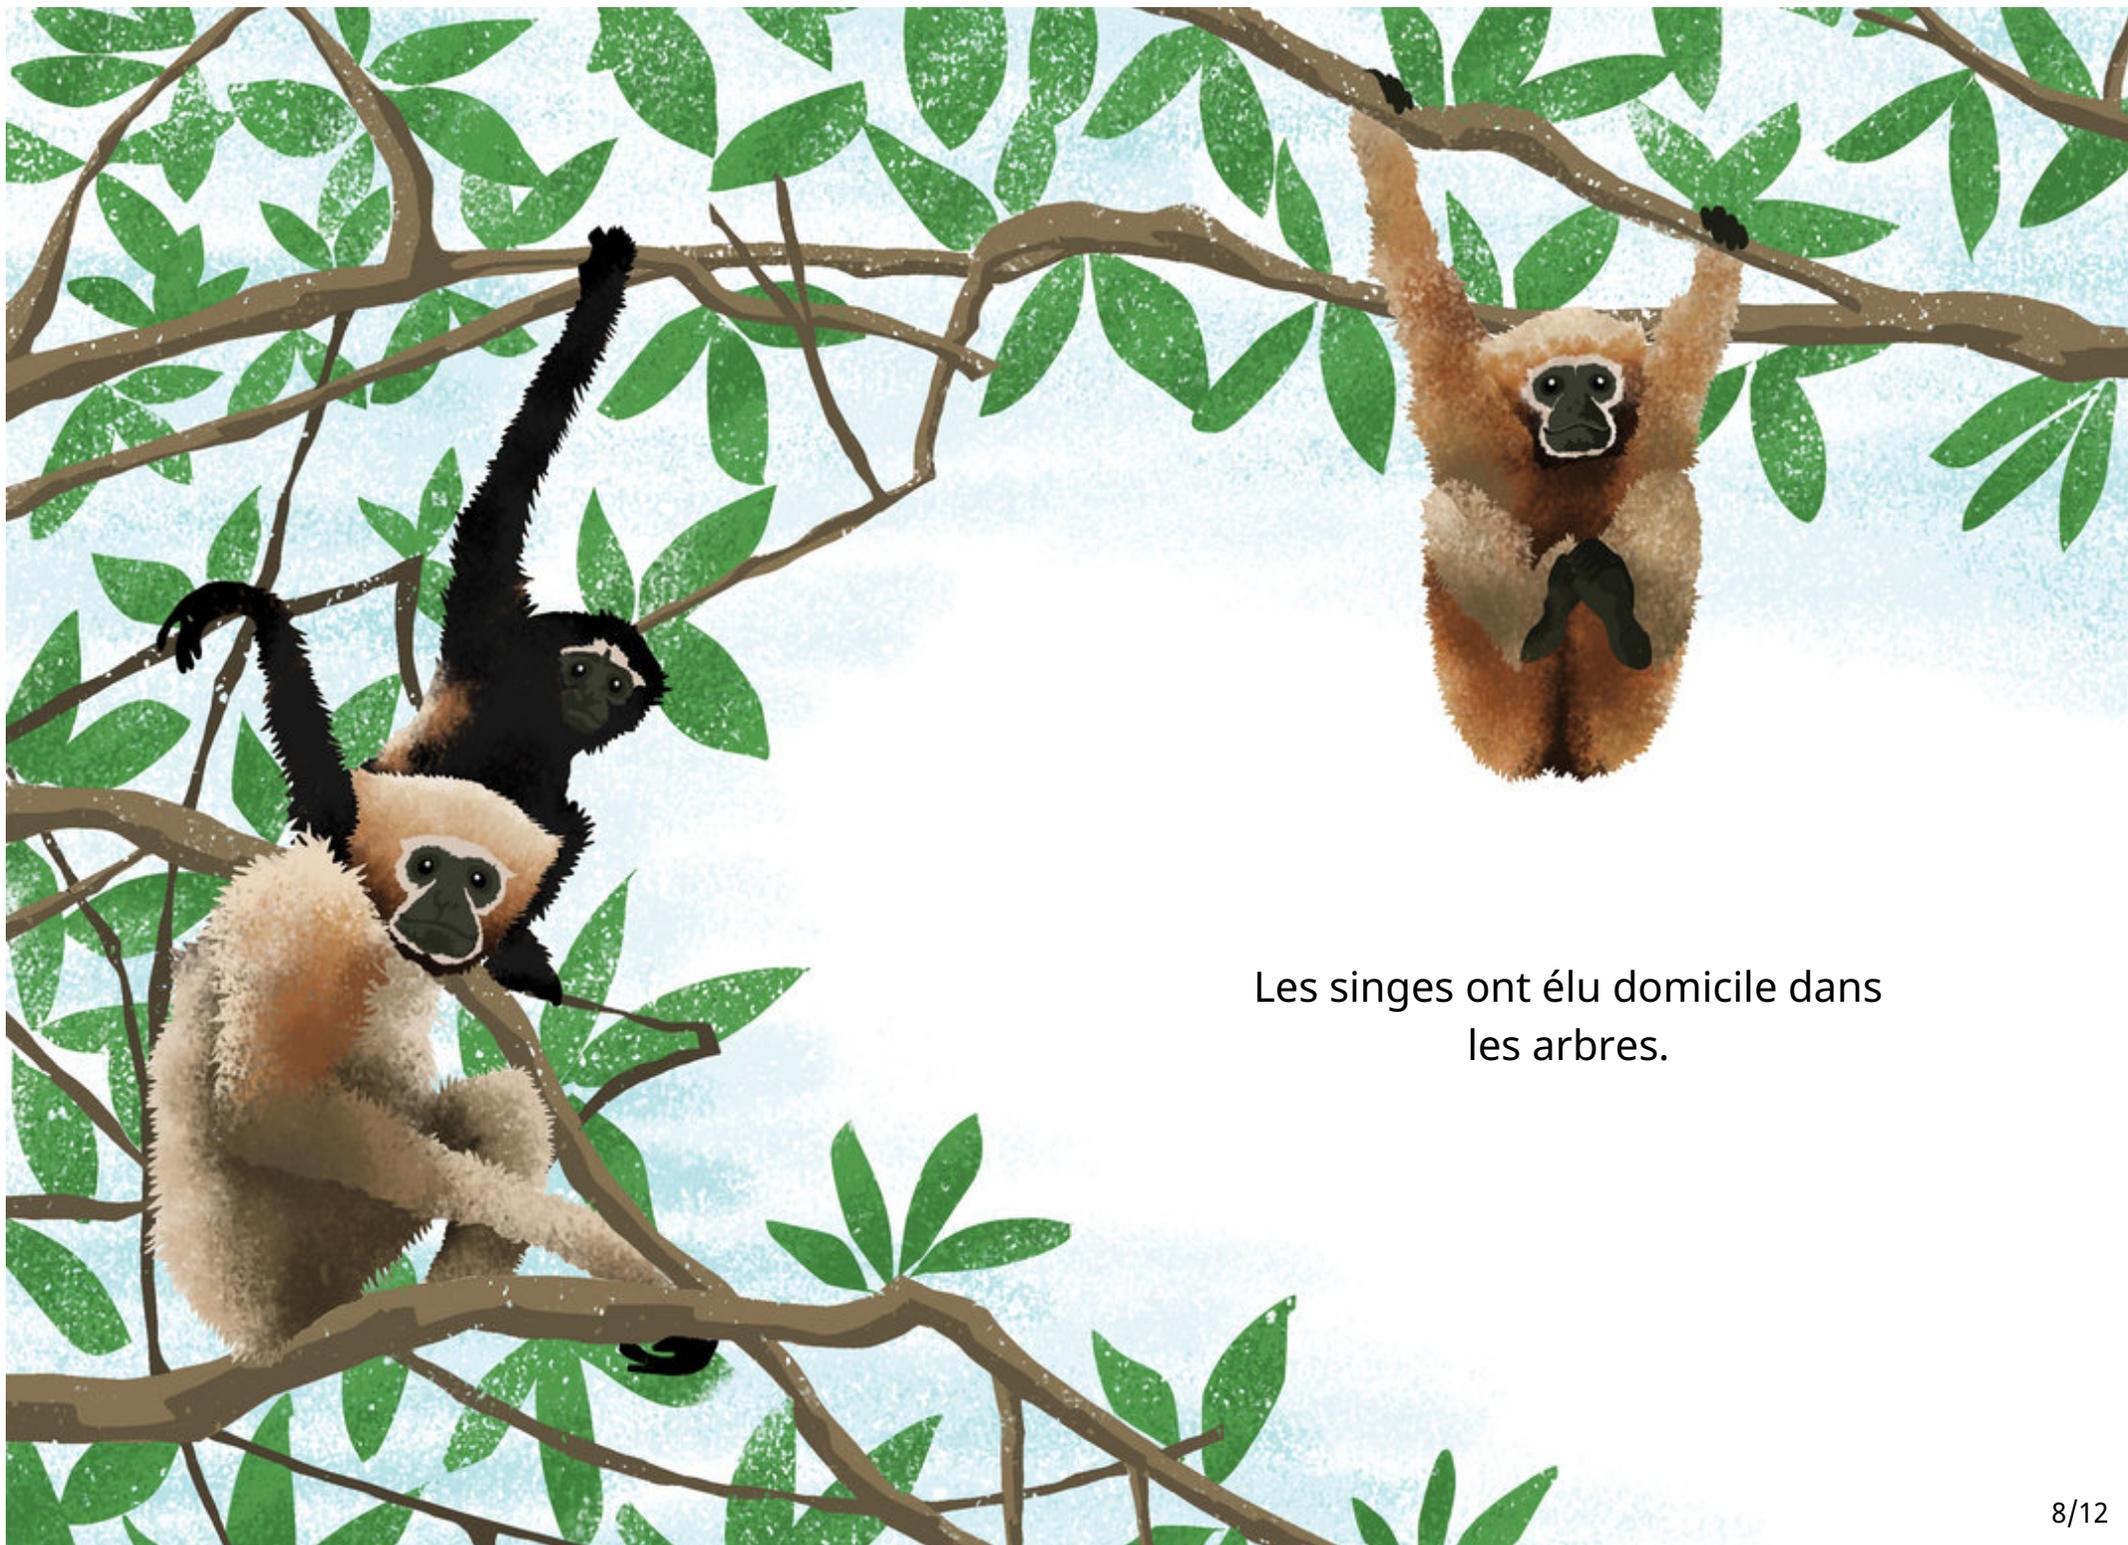

Les poissons vivent dans l'eau.

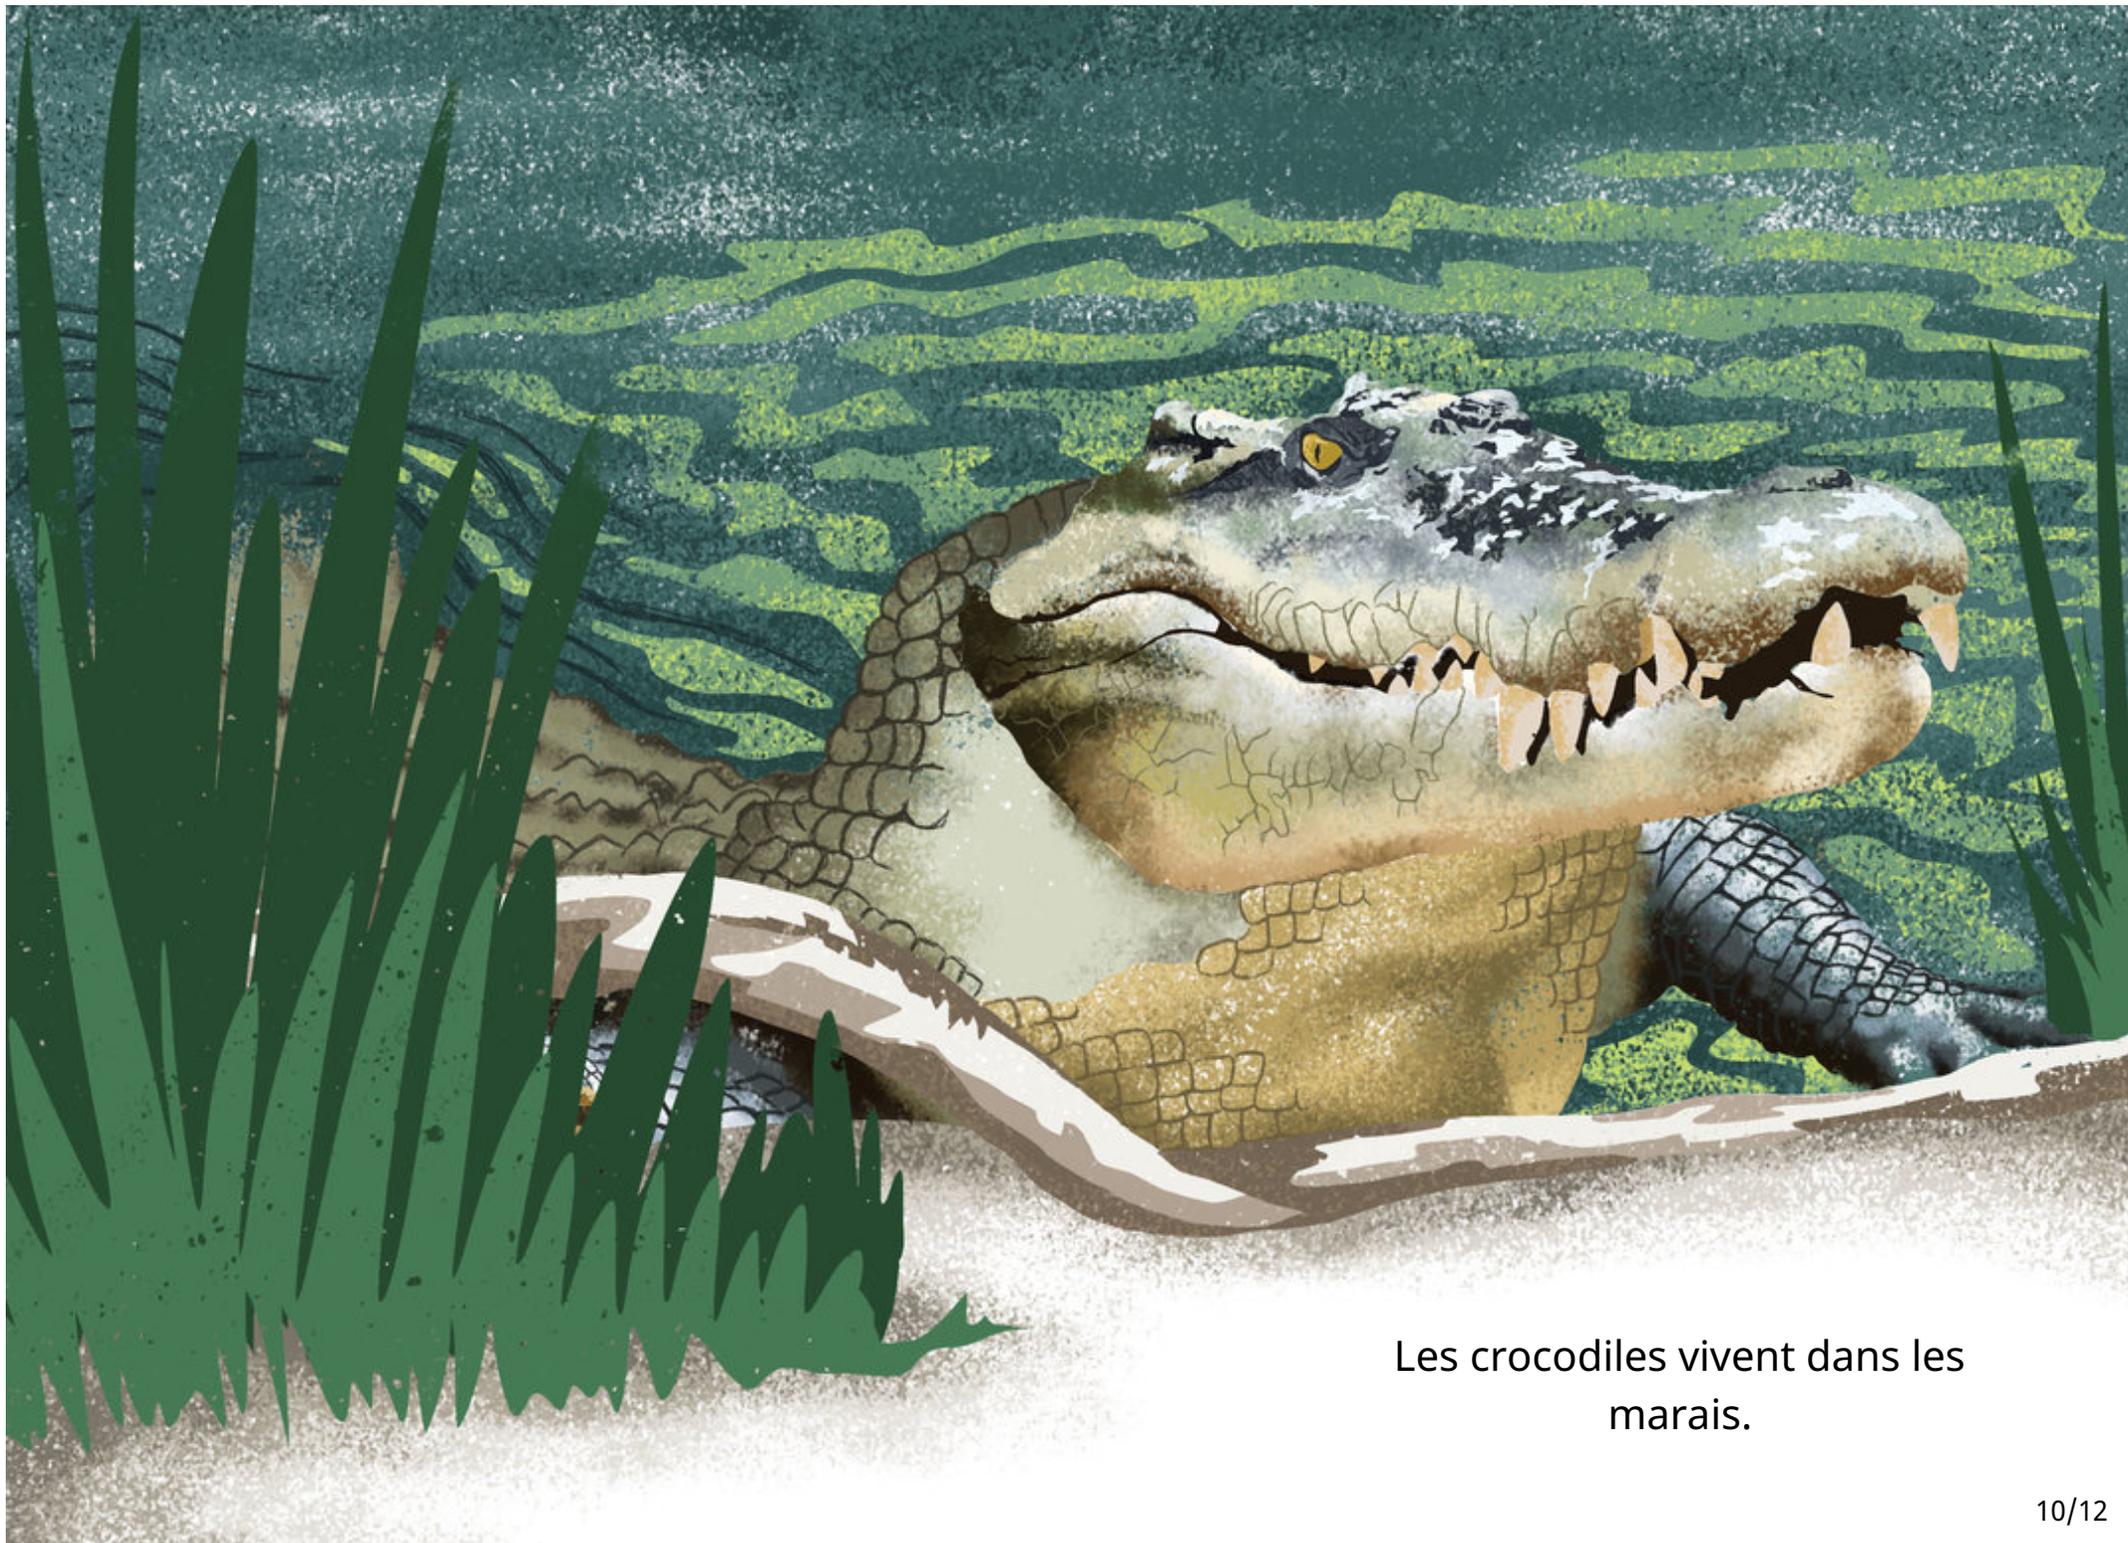

Les lapins et les rats vivent dans des terriers sous terre.

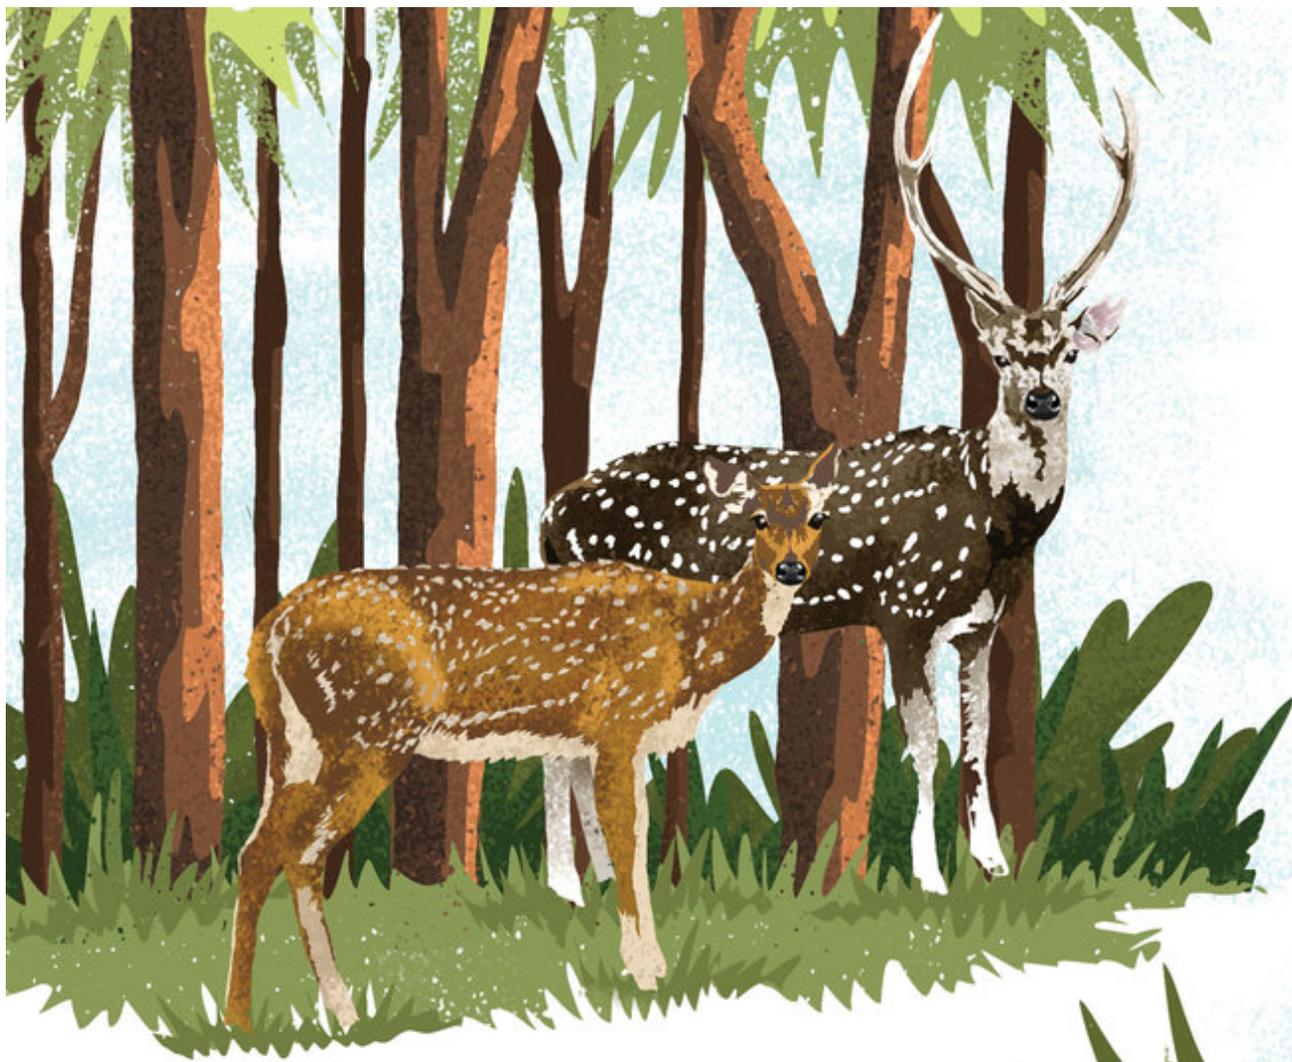

Les singes ont élu domicile dans les arbres.

Les ours et les loups vivent dans
des tanières.

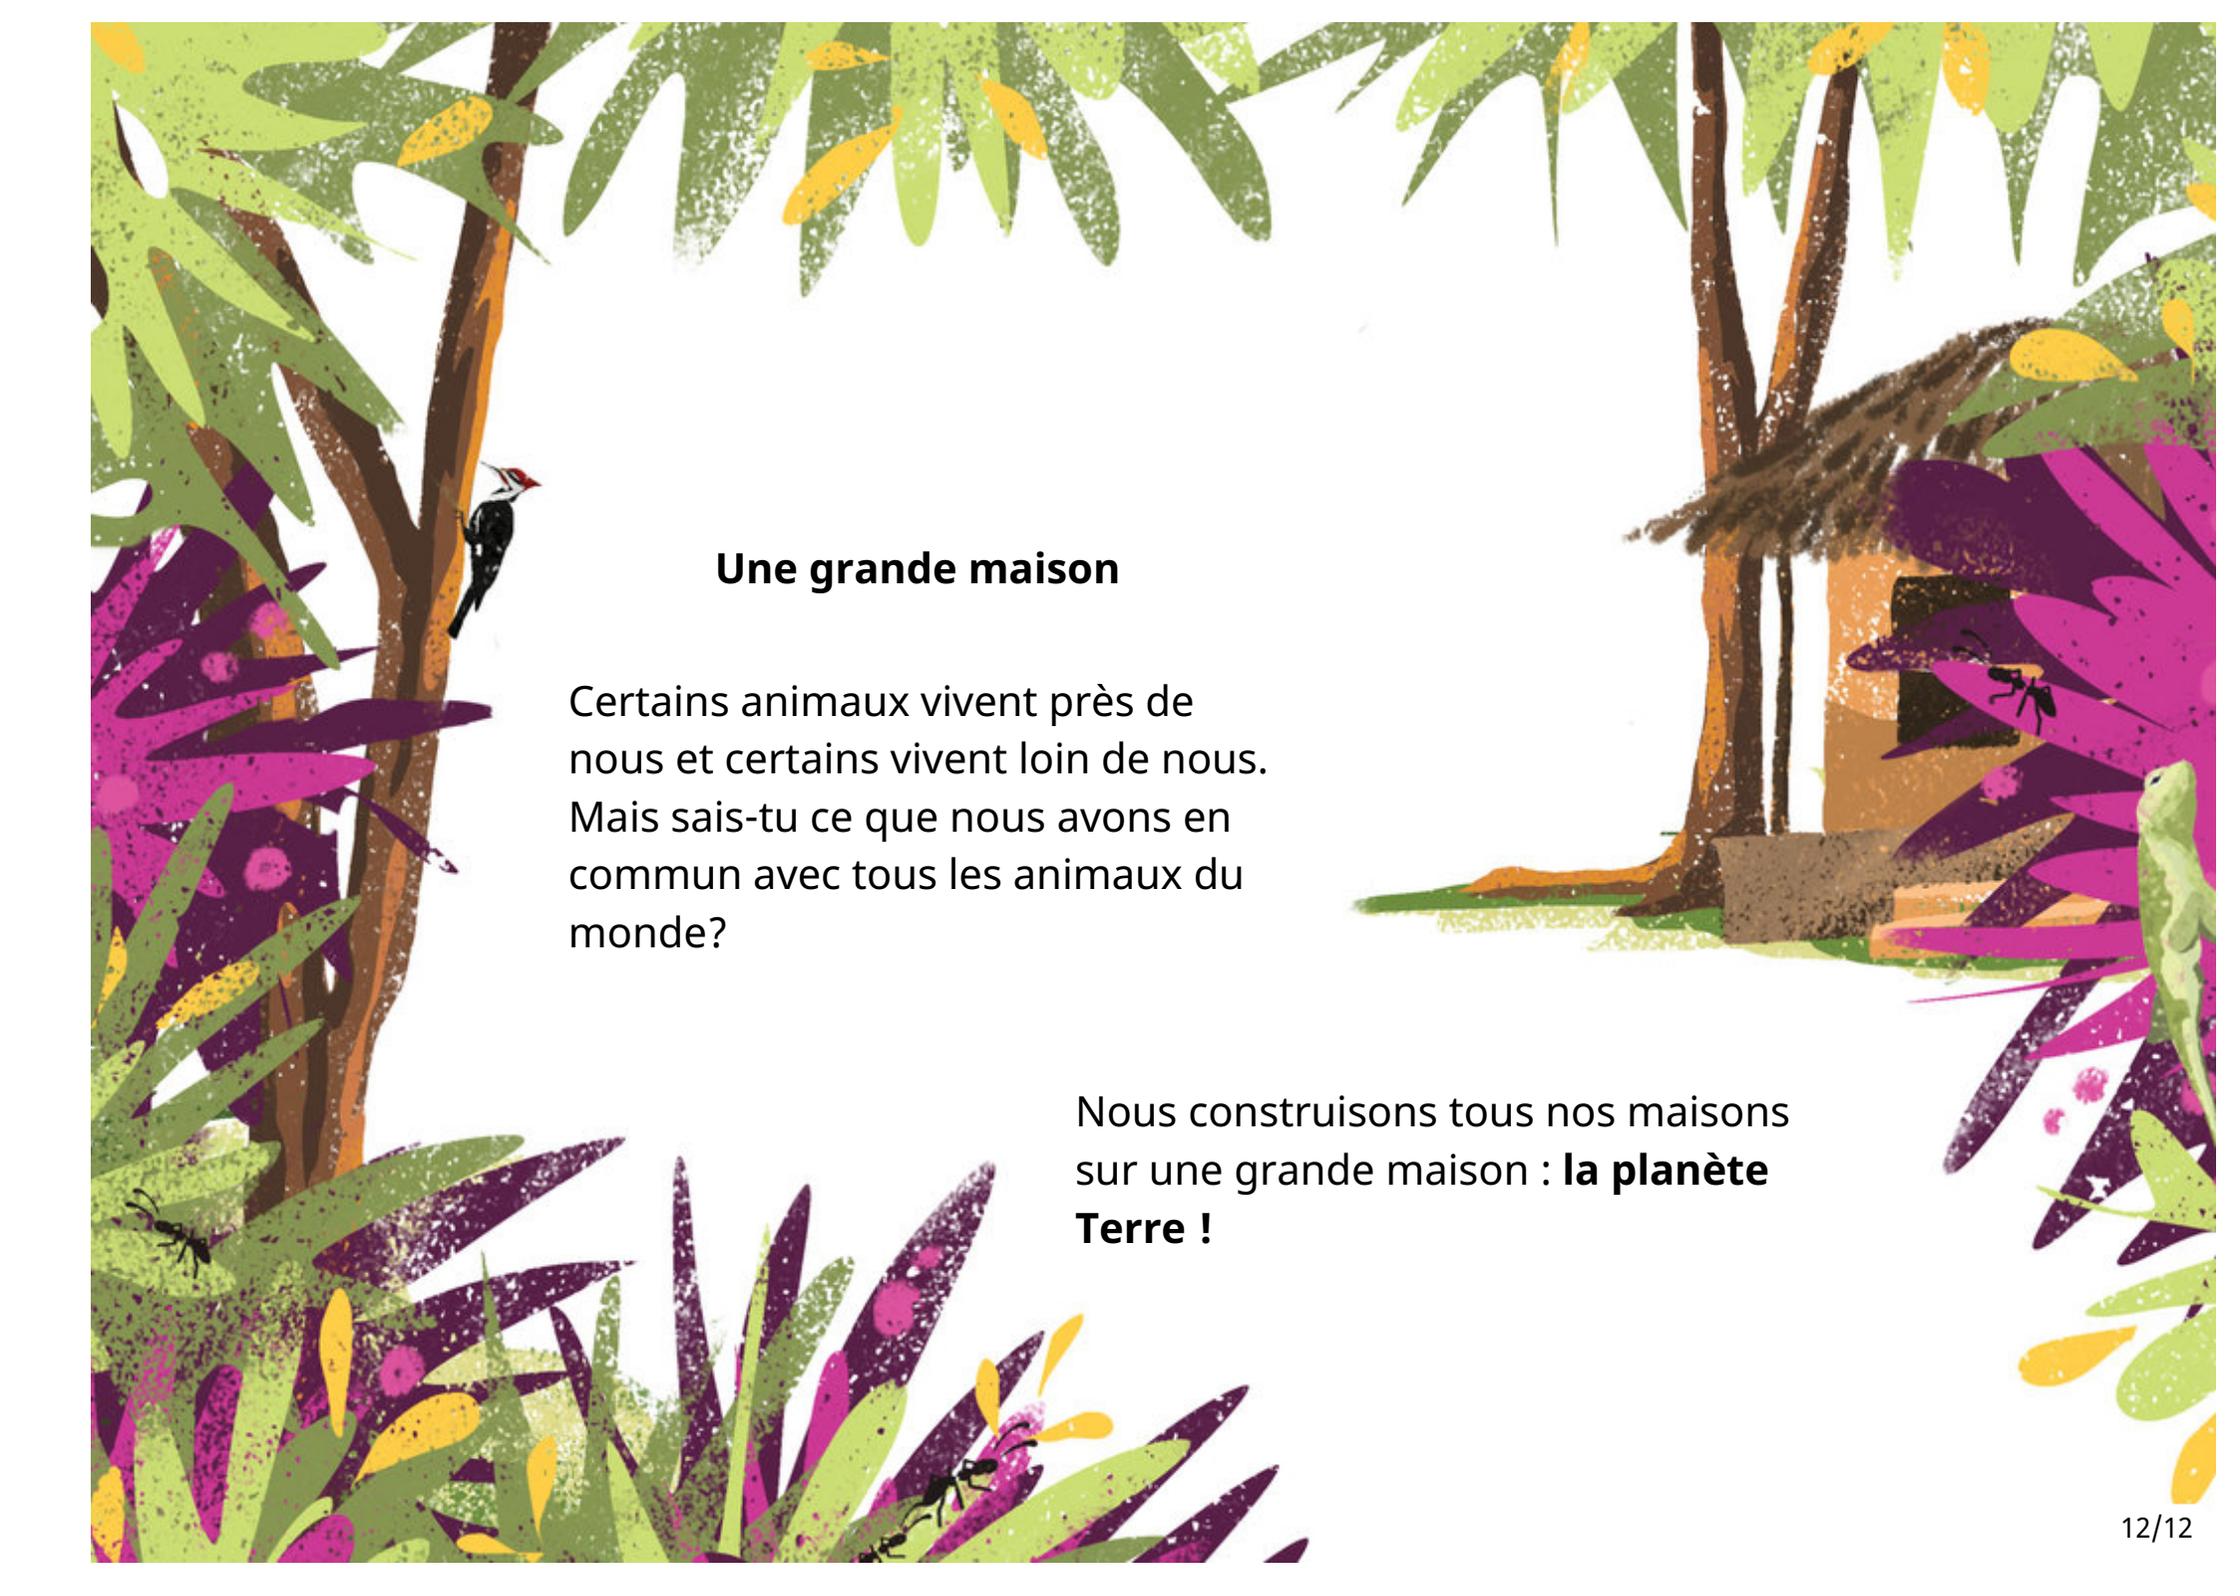

Les crocodiles vivent dans les marais.

Les cerfs vivent dans les forêts.

Et les tigres aussi !

Une grande maison

Certains animaux vivent près de nous et certains vivent loin de nous. Mais sais-tu ce que nous avons en commun avec tous les animaux du monde?

Nous construisons tous nos maisons sur une grande maison : **la planète Terre !**
