Plus profond qu'une raie manta...

An illustration of an underwater scene. In the upper right, a large, dark blue whale swims. Below it, a smaller whale with a white body and dark spots swims. The water is filled with many small, light blue fish. In the bottom right corner, there is a dark, rocky seabed with colorful coral and sea anemones in shades of red, orange, yellow, and purple. The overall background is a gradient of blue, from light at the top to dark at the bottom.

mais pas aussi profond
qu'une baleine de Cuvier.

À quelle vitesse peut nager un requin-baleine ?

Plus vite qu'un requin du Groenland...

An illustration of an underwater scene. In the upper right, a shark swims towards the left. To its left, a large school of small blue and white fish swims in the same direction. The water is a deep blue with light blue patches representing sunlight filtering through. In the foreground, there is a sandy and rocky seabed with various sea creatures: a yellow fish, a red crab, a blue fish, and several smaller fish. There are also various types of seaweed and coral. The text "mais moins vite qu'un espadon." is centered in the middle of the image.

mais moins vite qu'un espadon.

An illustration of a blue whale, a shark, and several seagulls swimming in the ocean. The blue whale is the largest, followed by the shark, and the seagulls are the smallest. The background is a vibrant blue with white splashes and clouds.
